Why online shopping?

Online shopping give you much more products to search because many of shops selling online. You can faster find what you want and order it to shop or house.

Advantages of online shopping

Online shopping have many advantages like:

- Faster searching products - many sites.
- Auction sites - you can find cheaper products.
- Promotion codes - shops often give codes that give you less price.
- Security - shop allows you to return product in few days after buy this.

Disadvantages of online shopping

Online shopping have too disadvantages like:

- Delivery cost - product can be cheaper than in shop but we need to add delivery cost.
- Speed - we need to wait until our order will be delivered.
- Security - we aren't know what we buy in 100%, plus it can be broken.

What I buy

I internet I mostly buy electronics or thing I can't by in shop, rarely I by something else like clothes.

I think the most common site I use to buy is allegro then x-kom or morele.net.
